COURSEWORK

UNDERGRADUATE

Data Structure Algorithm

Design and Analysis of Algorithms

Object Oriented Programming

Compiler Design

Operating Systems

JAVA

Database Management System

Advanced Computer Network

SKILLS

PROGRAMMING

Advanced:

Html • CSS • C++

Intermediate:

Javascript • ReactJS • Data Structure •

MySQL

Familiar:

Java • Node.js

PROJECT

CARS COMPARISON APP | React, JSX

- React component based website.
 - It Uses Jsx (html written in javascript) and CSS for styling.
 - Uses API for cars database
 - Different cars can be selected and they are then differentiated on same parameters.
 - It can be time saving for users and resolves their doubts regarding buying cars.
- Project link:=>[CarCompare](#)
